With so much of the National Park being only accessible by water, today is the day to soak in the natural beauty and wildlife that this special peninsula has to offer. Experience the sounds and sights of this intertidal zone under your own power. Paddle ashore on a remote rocky beach, disembark and stroll through a magical temperate rainforest. Bring your camera and get ready to experience a true microcosm of Alaska: bald eagles perched high in a dead snag, seals rolling through searching for fish, and potentially even catch the once-in-a-lifetime experience of the summer salmon run.
