**FAQS**

**What Are The Daily Rides Like?**

- Rider Type | 2 - Recreational
- Average Daily Mileage | 32
- Terrain | Hilly
- Average Daily Elevation | 650 feet
- Total Miles | 127
- Total Elevation | 2,600 feet

Averages and totals are calculated from our “Today’s Ride” options.

The terrain is generally rolling, with a few flat stretches on quiet, but sometimes narrow, roads. For those seeking more challenging rides, the hills to the east or west of the valley are sure to please even the most avid cyclist. The California Wine Country is best suited for our Type 2 Riders. Our Trek Travel guides can also easily accommodate Type 1 Riders, who seek less mileage or fewer uphills, with a boost in the van. Those who wish to ride every mile but are concerned about their physical ability may want to try our electric bike option—you still get a workout but can climb alongside even the strongest rider. Type 3 Riders will enjoy the extra mileage the avid route options offer.

**What are the options for a non-rider travel companion?**

On most Trek Travel trips, we offer non-riding options for riders who want to take the afternoon off, or travel companions who want to spend little or no time in the saddle. Some of these options may need to be scheduled before your trip—please contact one of our Trip Consultants for more information. Expenses and/or related transportation to these activities may not be included in the trip price. Some non-riding options on this trip are:

- Shop the chic boutiques on the plaza in Healdsburg
- Take a winery tour or indulge in wine tasting in a wide variety of wineries or tasting rooms in town
- Walk and explore the Armstrong Redwoods State Park
- Enjoy a spectacular spa experience at Hotel Healdsburg
